70 · System-owned surfaces

Design proposal • illustrative content • app code unchanged

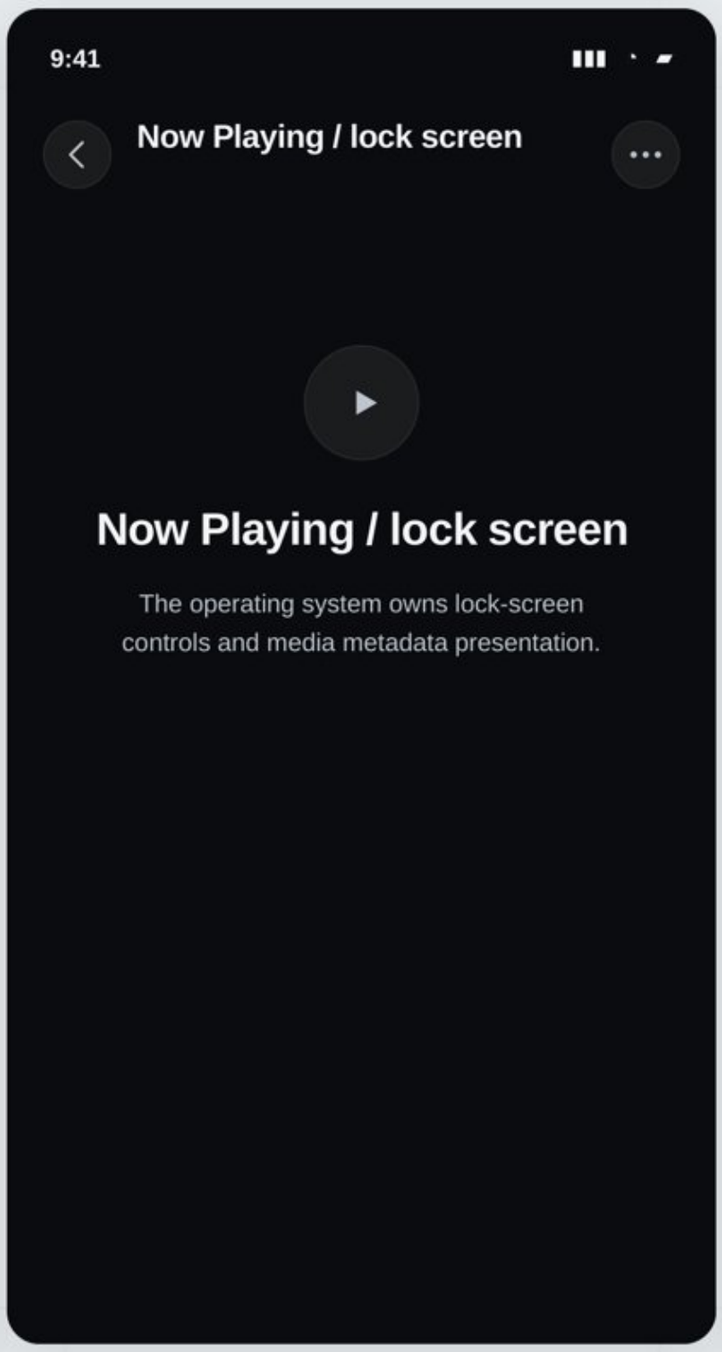

70 · System surfaces / ownership boundaries

Reference boundaries, not promises to replace system UI. Main player and sign-in shell images show the app-owned context.

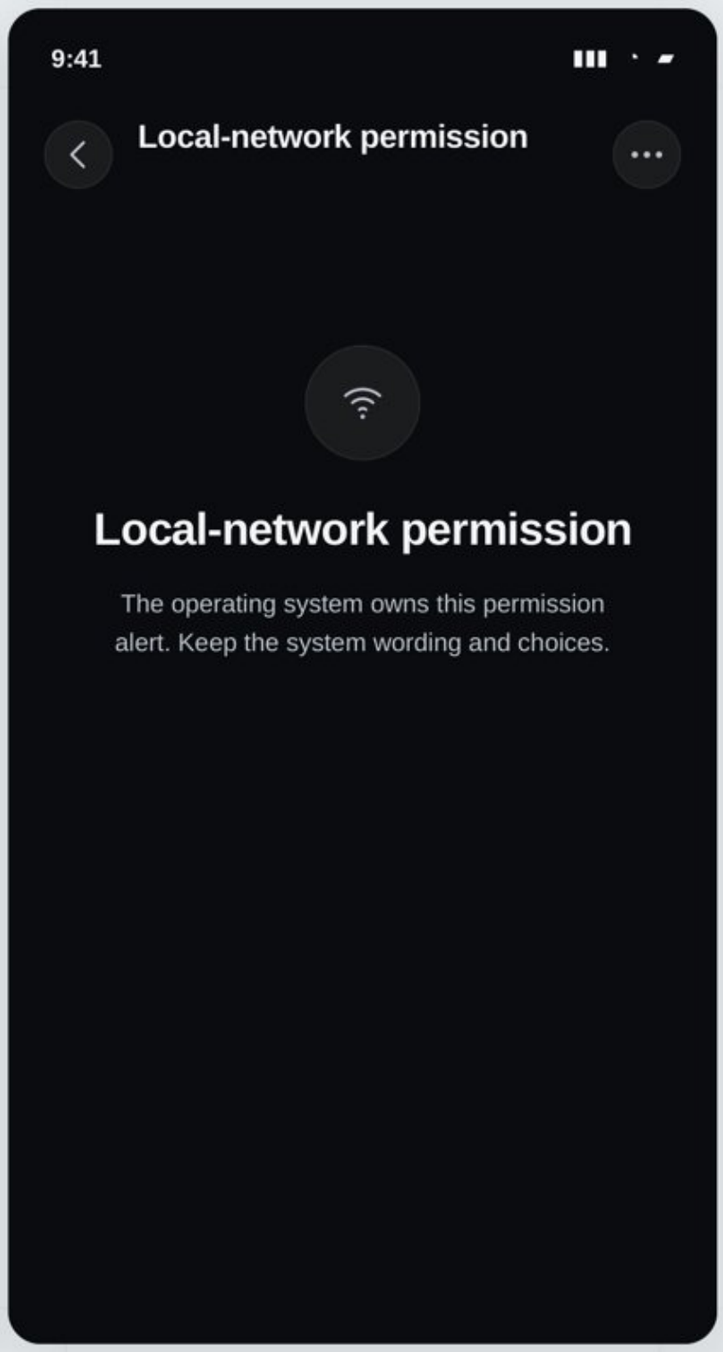

AirPlay route picker

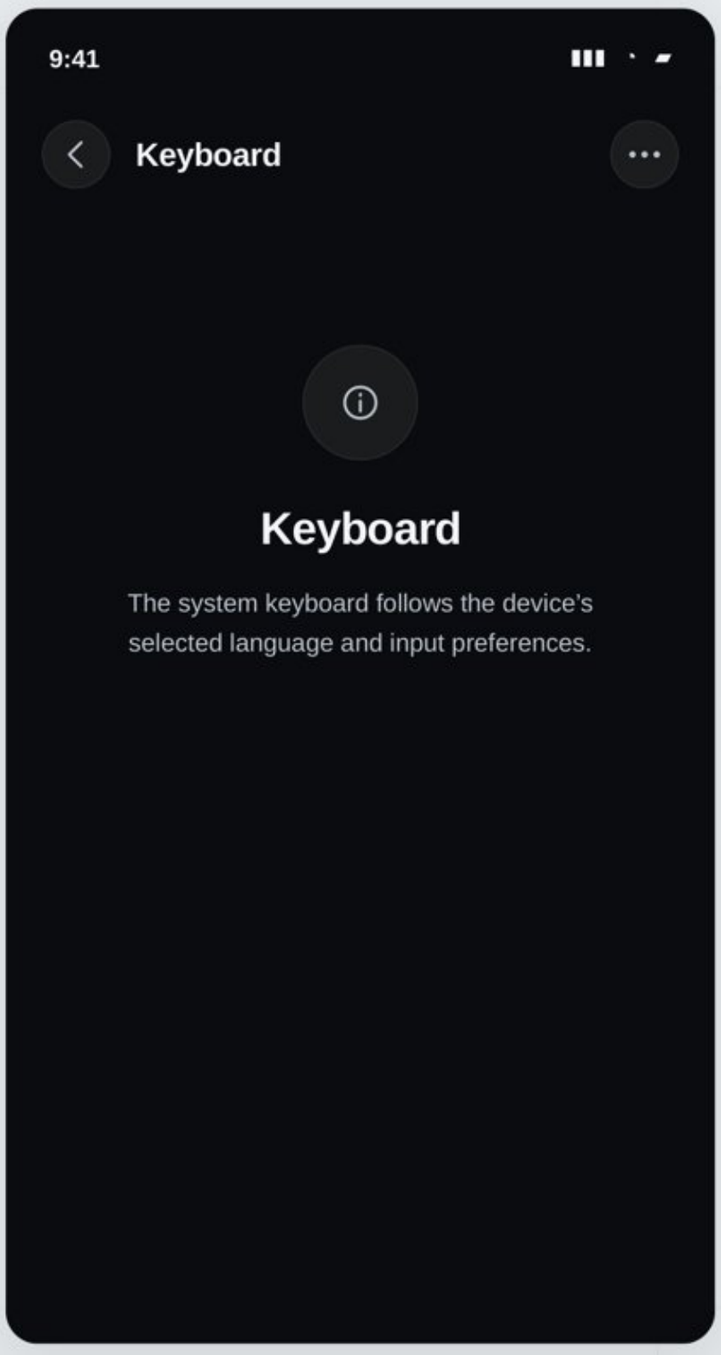

Now Playing / lock screen

Local-network permission

Keyboard

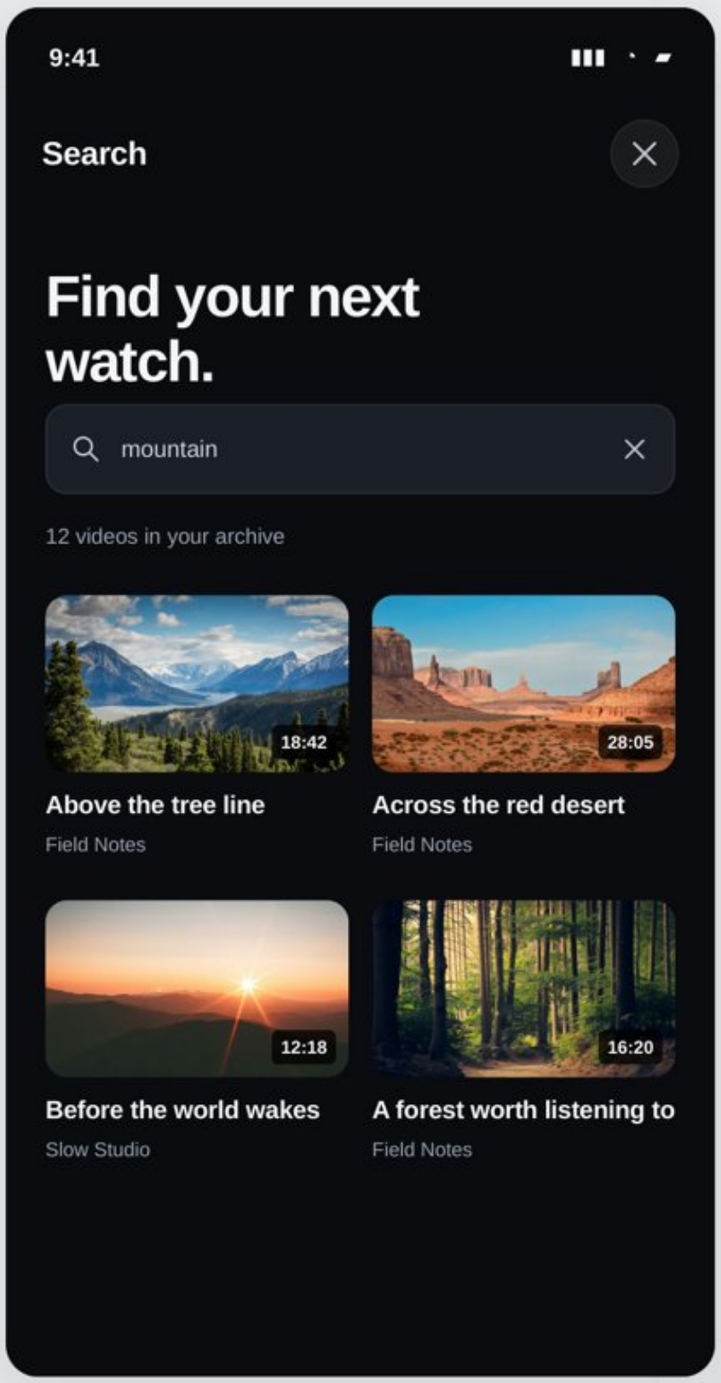

71 · Search entry compatibility

Design proposal • illustrative content • app code unchanged

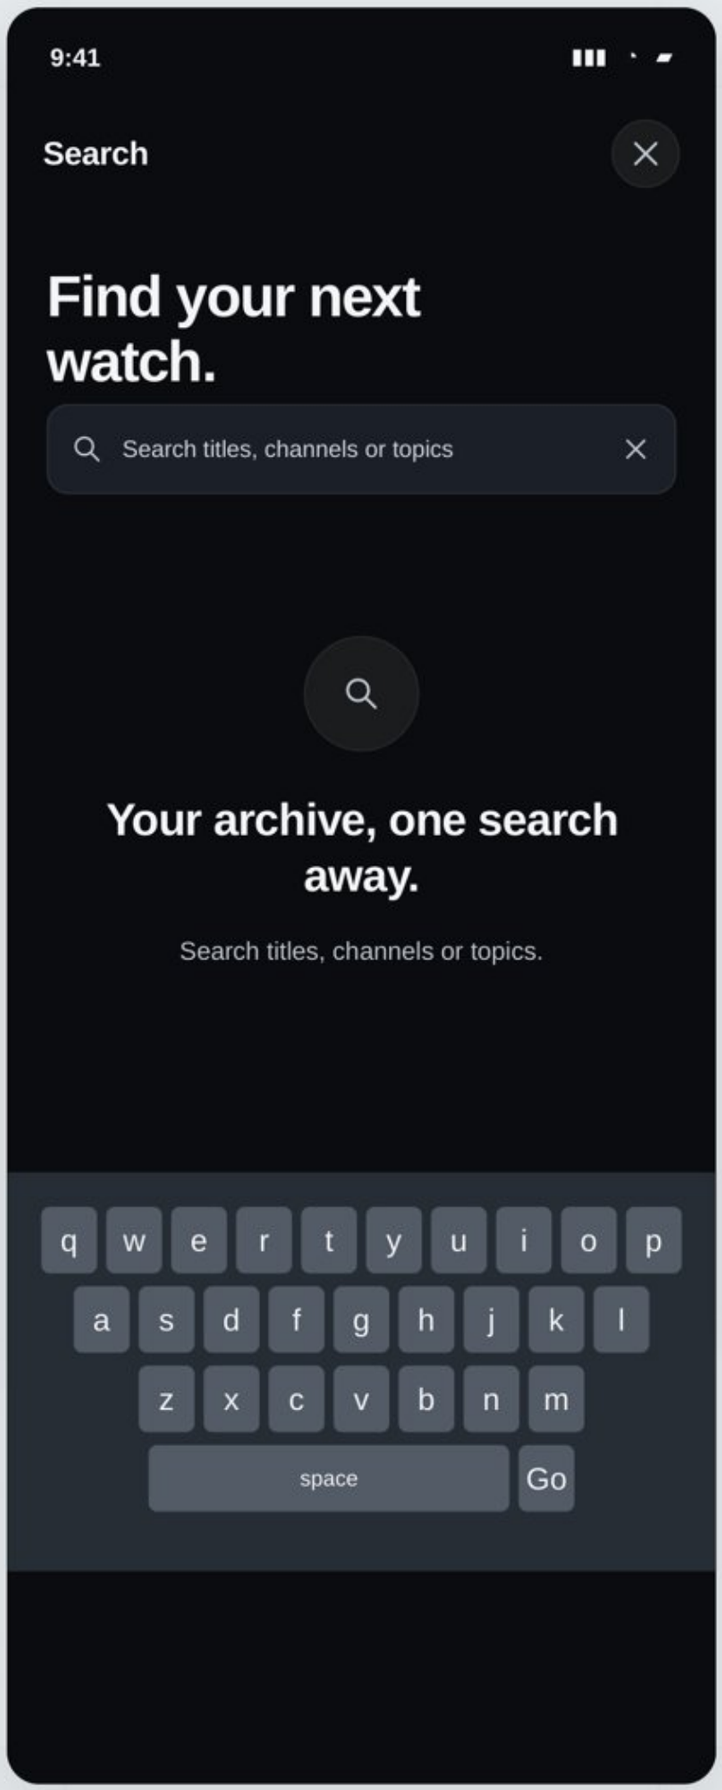

71 · Search entry compatibility

Same query and return location retained. Standalone router destination is retained but not currently opened by the Library view.

iOS 26 · trailing Search tab

iOS 17–25 · bottom search editor

Retained standalone search route
